

**PROBLEM**

# SECURITIZATION

invests in

A group of borrowers

# SYNDICATION

group of  
investors

invests in

A borrower

# WHAT IS MOSHILOAN

MoshiLoan is a Tokenized P2P Lending/Investment Platform

Allows a group of investors to invest in a group of borrowers

Acts as an insurer against defaults

# WHAT IS UNIQUE ABOUT OUR SOLUTION

Moshiloan integrates the syndication and securitization into a whole new investment/lending scheme through tokenization.

This is made possible by utilizing the latest technologies in blockchain and artificial intelligence.
