

SECURITIZATION

invests in

A group of borrowers

SYNDICATION

group of
investors

invests in

A borrower

Tokenized investment

WHAT IS MOSHILOAN

MoshiLoan is a Tokenized P2P Lending/Investment Platform

Allows a group of investors to invest in a group of borrowers

Acts as a service provider

WHAT IS UNIQUE ABOUT OUR SOLUTION

Moshiloan integrates the syndication and securitization into a whole new investment/lending scheme through tokenization.

This is made possible by utilizing the latest technologies in blockchain and artificial intelligence.
